Update of reviews on potassium citrate and asparagine

Dear Richard:

Enclosed you will find my proposed corrections and minor updates of the reviews on potassium citrate and asparagine. In the draft "transcript" by Covington and Burling some misprints and little problems arising from new wording or combination of paragraphs require correction. These and the minor additions due to information, which became available since last summer, are listed in the enclosure and marked in the copies of the lawyer's text. It includes one of the 2 extensions of the text on potassium citrate requested in the letter of Ms. Taylor to Dr. Charles. The second requested extension on the industry levels of use needs your assistance, because this information is not available to us.

I would appreciate receiving a copy of the final documents.

If you have any questions, please do not hesitate to contact me.

Yours,

Best regards,

Dr. R.-A. Walk
